

QUICK START GUIDE

This guide provides step-by-step instructions, with simple explanations to get you up and running.

For further information, please go to WWW.GLOBEWIRELESS.COM.AU

ACTIVATE ONLINE – SAVE TIME!

<https://safedial.permaconn.com>

STEP 1 – ACTIVATE - Flip over this pamphlet for details

STEP 2 – WIRE - As per the diagram

STEP 3 – SEND AN EVENT - Trigger an event from the Alarm Panel

The GL45 obtains the Account Code directly from the Alarm Panel during the first alarm event

STEP 4 – CONTACT CONTROL ROOM – Confirm your event was received

ALL DONE

****Make sure you have a common ground between the GL45 and the Alarm Panel!****

For direct wiring or keyswitch wiring and programming for various alarm panels, please refer to www.globewireless.com.au/technical-support/
